

## GCMC FAQ

### **About the product**

#### **Are your products gluten-free?**

Yes! All of our products are gluten-free.

#### **Are your products soy free?**

Some of our products do not include soy in the recipe, but since there is soy in our facilities, all of our products may contain traces of soy.

#### **Do you have any sugar free options?**

Most of our pepperoni sticks contain a small amount of sugar to support the fermentation process but are otherwise considered sugar-free.

#### **Do your products need to be refrigerated?**

All of our products are shelf-stable, meaning they do not have to be refrigerated before or after opening. The only exception is our Pepperoni and Cheese sticks as well as our BBQ sausage, which are only available at select locations.

#### **Are your products Keto friendly?**

Yes, our products are Keto friendly.

#### **Where can I find the expiry or Best Before date?**

The Best Before date is printed on each of our products in either black or green ink. It reads YY-MM-DD. If the product is past this date, you will not get sick, but the quality will be worse than if it was fresh.
